# INTRODUCTION/VORSTELLUNG DES THEMAS

## Background/ Hintergrund

Prosperity and quality of life call for economic strategies that are soundly financed, equitably allocated, that deal responsibly with the world's resources, while taking into account the material and immaterial needs of mankind. Such a positive future scenario cannot be put on the same level with a permanent or even exponential increase of the economic production (GDP).

Wohlstand und Lebensqualität verlangen künftig eine Wirtschaftsweise, die solide finanziert ist, gerecht verteilt, mit den Ressourcen der Welt verantwortungsvoll umgeht und die materiellen und immateriellen Bedürfnisse der Menschheit gleichermaßen berücksichtigt.

Ein derart positives Zukunftsszenario kann nicht mit einer permanenten oder gar exponentiellen Ausweitung der wirtschaftlichen Produktion (BIP) gleich gesetzt werden.

## Aims/ Ziele

We can achieve this goal by taking specific measures to alter the incentive systems and regulations of our national economies. While this is the responsibility of governments, the design of those measures must be the result of a wide public debate. The international conference in Vienna aims to start such a wide debate on ›Growth in Transition‹ with various stakeholders and to contemplate first approaches.

Um dies zu erreichen ist es notwendig, gezielte Eingriffe in die Anreizsysteme und in den Regulierungsrahmen unserer Volkswirtschaften vorzunehmen. Dies ist Aufgabe der Politik. Die konkrete Ausgestaltung der Maßnahmen muss das Ergebnis einer breiten öffentlichen Debatte sein. Die internationale Konferenz in Wien hat zum Ziel, eine solche breite Diskussion über ›Wachstum im Wandel‹ mit möglichst vielen unterschiedlichen Stakeholdern zu initiieren und erste Lösungsansätze anzudenken.

## Topics/ Inhalte

›Growth in Transition‹ will be discussed at the conference on the basis of the following topics:

- Money and the Financial System
- Growth and Resource Use
- Social Justice and Poverty
- Sustainable Production and Consumption
- Regional Aspects
- Macroeconomics for Sustainability
- Quality of Life and Measurement of Prosperity
- Work
- Governance
- Sustainable Management

›Wachstum im Wandel‹ wird auf der Konferenz anhand der folgenden Themen diskutiert werden:

- Geld und Finanzsystem
- Wachstum und Ressourcenverbrauch
- Soziale Gerechtigkeit und Armut
- Nachhaltige Produktion und Konsum
- Regionale Aspekte
- Makroökonomische Fragen
- Lebensqualität und Messung von Wohlstand
- Arbeit
- Governance
- Nachhaltiges Management

We invite you to discuss the topics and questions in the run-up to the conference at [www.growthintransition.eu](http://www.growthintransition.eu).

Wir laden Sie herzlich ein, die Inhalte und Fragen im Vorfeld der Konferenz auf [www.wachstumimwandel.at](http://www.wachstumimwandel.at) zu diskutieren.

## SCIENTIFIC WORKSHOP: SCIBARCAMP ›GROWTH IN TRANSITION‹

Wednesday, 27 January 2010

10.30-17.30

Location: Federal Ministry of Agriculture, Forestry,  
Environment and Water Management,  
Stubenbastei 5, 1010 Vienna

- Aims** The Scientific Workshop will be held to discuss the scientific underpinnings of both optimistic and more pessimistic views about the compatibility of economic growth and sustainable development (e.g. substantial reductions in resource use).
- Workshop Format** BarCamp is an open and participatory unconference. BarCamp workflow has similarities with the Open Space method, but loosely organized. BarCamp approach is successfully used around the world in various sectors. SciBarCamps are Barcamps that focus on scientific issues. The SciBarCamp ›Growth in Transition‹ consists of presentations and discussions (sessions) that are self-coordinated by the participants in the morning by using pin boards. That means there is no elaborated agenda, though there are certain rules to follow. Active participation is required – it is not requested that each attendee holds or guides a presentation, however everyone is expected to take part in discussions, to opt for sessions, to ask questions, etc. The basic idea is informal knowledge sharing.
- Language** The workshop will be held in English.
- Poster Session** Participants of the SciBarCamp ›Growth in Transition‹ are invited to bring posters, or to design them on the spot. An exhibition of posters will take place during the SciBarCamp.
- Schedule** Depending on the number of attendees, there are up to six rooms available.
- Moderation** **Hannes OFFENBACHER** – *›Mehrblick‹, Austria*
- Registration** Together with conference registration.
